

CalMark Cover Co.
Semi Custom RV Cover Dimension Sheet
Class A and Class C Front

The Semi-Custom RV Cover is a rectangular boxed shape cover, tailored to the exact length width and height of your RV. For coaches such as a Class A with a large sloping front end or a Class C with an overhang, two additional dimensions are required. This allows us to remove some of the excess fabric in this front area providing you with much better fit eliminating potential wind damage and extending the life of the cover.
